

Technical Data Sheet

EG1101-55053

Laqva Top 30

Product description

A one component waterborne topcoat aimed for use for furniture and interior joinery. Both solid wood and MDF are suitable substrates. EG1101 is fast drying with excellent stackability particularly on fast industrial lines using force drying combination IRM and jetted air

Product data

Gloss: 30-35 Gardner 60°

Solid content: 46 ±1 [weight %] theoretical

Specific gravity:1180 ±30[kg/m³]Viscosity:30-35[s] DIN 6test performed at 23 °C

pH: 7-9,5

Frost sensitive: Yes

Storing: 12 months At 5-30 °C Storing at higher temperature reduces shelf life, do not expose to direct sunlight

Process Temperature: 18-30 °C To achive the best result and consistency follow the application and surface temperatures given in

Schedule of Apllication for each specific technology and production line.

Mixing/Application

Recommended application Amount Application Application
method Hardener hardener Dilutant viscosity amount Notes

[Parts by vol] [g/m²]

Air less spraying Water delivered 90-120 Roller coater filler machine Water delivered 90-120

Stir well before use!

Cleaning: XX699

Water

Drying

Method Drying condition Drying time Notes

Forced drying 50 ° C 5-10 min depends on amount applied Air Drying 20 °C 25-30 min depends on amount applied

All kind of drying requires good ventilation and circulation

Do not stack before surface temperature below 30 °C

Exterior products: should not be exposed to water, water condensation or temperatures below 0 °C with in 48 h after application

Full cure N/A Semi cure N/A

Note - Required Peak/Energy is depending on several factors, such as substrate, amount of application, number of layers and type of UV oven / reflectors. Recommended Peak/Energy values will be stated in the finishing instruction/process control submitted by technician.

General information

According to Swedish legislation we provide information regarding dangerous materials. The Safety Data Sheet contains facts about the components, primarily solvents and acids which present the dangerous characteristics. The Safety Data Sheet will be sent on request. All values and recommendations above are to be considered as guidance only. Many factors beyond our control may have an influence on the coating result. Should a problem arise, please contact us and we will advise accordingly. We reserve the right to alter the above specifications.
