

## **Technical Data Sheet**

## ED1631-9006

Laqva proof

## **Product description**

Waterborne primer for wooden furniture and mouldings. Especially developed to protect white surface from knot yellowing on pine and spruce. Universal product that can be used together with most waterborne and waterborne-UV topcoats. Faster drying than previous version and also gives a high body with good filling properties.

**Product data** 

**Solid content:** 59 ±1 [weight %] theoretical

Specific gravity: 1320 ±30 [kg/m³]

Viscosity: 19-23 [s] DIN 6 test performed at 23 °C

**pH**: 7-9,5

Frost sensitive: Yes

Storing: 6 months At 5-30 °C

Storing at higher temperature reduces shelf life, do not expose to direct sunlight

Process Temperature: 18-30 °C To achive the best result and consistency follow the application and surface temperatures given in

Schedule of Apllication for each specific technology and production line.

Mixing/Application

Recommended application Amount **Application Application** Dilutant method Hardener hardener viscosity amount Notes [Parts by vol]  $[g/m^2]$ Air mix spraying water deliveried 120-150 Air less spraying water deliveried 120-150 Paint pressure should be above 120 bar

Stir well before use!

Drying

Method Drying condition Drying time Notes

Forced drying 50 °C 15-20 min depends on amount
Air Drying 20 °C 2-4 h depends on amount

All kind of drying requires good ventilation and circulation Do not stack before surface temperature below 30 °C

Full cure N/A Semi cure N/A

Note - Required Peak/Energy is depending on several factors, such as substrate, amount of application, number of layers and type of UV oven / reflectors. Recommended Peak/Energy values will be stated in the finishing instruction/process control submitted by technician.

## **General information**

According to Swedish legislation we provide information regarding dangerous materials. The Safety Data Sheet contains facts about the components, primarily solvents and acids which present the dangerous characteristics. The Safety Data Sheet will be sent on request. All values and recommendations above are to be considered as guidance only. Many factors beyond our control may have an influence on the coating result. Should a problem arise, please contact us and we will advise accordingly. We reserve the right to alter the above specifications.
